Myrtle R. Wells

Treasurer.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the Members of the School Board:

This report, for the year ending June 30, 1924, is the fifth annual report which I have had the honor of presenting to your Board.

Organization

Following a year's absence from the work of the school room Mrs. Lillie G. Coburn returned in September to her position in the Mills school. This is a school of thirty-five pupils and includes practically all of the eight grades. In justice both to the teacher and to the pupils there should soon be some provision for the separation of the two upper grades.

The North school with its twenty-eight pupils would have gained in efficiency by the combination of its seventh and eighth grades with the same grades taken from the other schools.

Mrs. Mina C. Jordan brought to her work at the South school excellent normal school training and experience particularly with the upper grades.

Teachers Employed, 1923-24

<i>School</i>	<i>Name</i>	<i>Professional training</i>	<i>Teaching Experience</i>	<i>Salary annual rate</i>
Mills	Lillie G. Coburn	Plymouth (1 year)	14 years	\$900.00
North	Belle C. Ball	Keene 3 summers	28½ years	800.00
South	Mina C. Jordan	Kan.State Normal Grad. 1914.	4 years	800.00

Enrollment and Attendance

One hundred and three Sutton children were enrolled in schools within the state. Of this total eighty attended the three local schools and twenty-five, including two children registered both in Bradford and Sutton, were tuition pupils in neighboring towns.

Distribution of Sutton children attending schools elsewhere:

	<i>High</i>	<i>Elementary</i>
Bradford		6
New London	1	3
Proctor (Andover)	1	
Warner	4	5
Wilmot		5
Totals	6	19

Attendance, 1923 - 4

HONOR ROLL

Perfect attendance for the year

Louise Bullard	Paul Burke
Mildred Davis	Evelyn Johnson

Health

The results of the medical examination made by Dr. William Clough in December are as follows:

Number of pupils examined	65
Number of teachers examined	3

	No. cases found by Examiner	Treatments secured
Defective vision	7	1
Defective hearing	2	
Nervous disease	1	
Skin disease	3	
Orthopedic defects	5	1
Defective teeth	42	39
Hypertrophied tonsils	18	
Adenoids	11	
Defects in breathing	5	
Enlarged glands	2	
Unvaccinated	4	1
Scabies	2	
Tonsilitis	1	
Other defects or diseases	1	

There is a general improvement in the care of teeth. Correction of vision and hearing, and removal of tonsils and adenoids frequently determine the success of a child's school life and later opportunities. The employment of a school nurse, if only for part time, is often of valuable assistance to the parents in securing the corrective treatments recommended by the examining physician.

Instruction and Promotion.

In addition to the regular work in arithmetic special drills have been given the four upper grades by the use of self-keyed number cards. These are productive of both speed and accuracy, and extend intensive drill in the processes of addition, subtraction, multiplication and division as applied to integers, fractions and mixed numbers. The interest and proficiency of many of the pupils in this work has been excellent.

The New Aldine Series and the Winston readers have been added to the basal reading of the first four grades.

Some progress has been made and much more can be gained through the use of the problem method of teaching hygiene, history civics and geography. Some excellent results were secured through this type of work in the South school. The large number of lower grade pupils gave scant time for its application in the other two schools.

Of the two pupils graduated from the eighth grade in June, with final averages of 80 and 81 per cent, Harold Hurd is attending high school in Warner and Howard Barker is employed in lumbering.

Improved Equipment.

Following the action of the District at its meeting last March. Extensive repairs have been made on the foundation of the school-house at the Mills. Also a partition extending to the ceiling reduces the cubic feet of heated space in the schoolroom by more than than one-fourth. While the reduction of floor space and the addition of windows have increased the lighting facility three times. The unused space is of sufficient dimensions for an ample recitation room or for both manual training shop and domestic science kitchen.

More sanitary toilet equipment, particularly at the North schoolhouse, will soon demand attention. There is an excellent opportunity to install in this building a two-unit chemical toilet with doors opening directly from, or in close proximity to, the schoolroom.

Conclusion

In conclusion I want to express my appreciation of the constructive criticism and generous cooperation which have been characteristic of the school board, the parents and other citizens. I want particularly to commend to you the class room teachers who work with a purpose born of vision, the transportation drivers who brave and sometimes break the winter roads and last but not least the faithful janitors who keep comfortable and tidy the physical environment of your schools.

Respectfully submitted,

Geo. H. Harmon,

Superintendent of Schools.

VITAL STATISTICS

Births Registered in the Town of Sutton for the year ending December 31, 1925

Date of birth	Place of birth	Sex and condition			Name of father	Maiden name of mother	Color parents	Residence of Parents	Occupation of father	Birthplace of father	Birthplace of mother
